

Elastomer Type: Fluorosilicone (FVMQ)

Precix Compound: G21 / 75 Shore A

General Information

- Excellent Fluid Resistance
- Good Permeation Resistance
- Excellent Low Temperature Resistance
- Excellent Heat Resistance
- Excellent Compression Set Resistance

Applications

- Fuel Injectors
- Fuel Quick Connects
- Fuel Pumps
- Fuel Tank Seals
- Any seal application dealing with fuels, including synthetic fuels

Material

- 100% Virgin Materials
- Made in USA
- Boeing Approved to AMS-R-25988 (Mil-R-25988/2)

Color

- Blue

Operating Temperature

- -60°C to +200°C

Specific Gravity

- 1.63
