

Elastomer Type: Perfluoro Elastomer (FFKM)

Precix Compound: P03 / 75 Shore A

General Information

- Exceptional Chemical Resistance
- Thermal Stability - Heat Resistance to 300C
- Low Compression Set Resistance
- Resistance to Swelling in Aggressive Fluids
- Abrasion Resistance – Withstands Mechanical Wear in Demanding Environments

Applications

- Chemical & Petrochemical Processing
- High Temperature Seals & Gaskets
- Aerospace
- Petroleum Exploration & Extraction

Material

- 100% Virgin Materials
- Made in USA

Color

- Black

Operating Temperature

- -10°C to +300°C

Specific Gravity

- 2.02
