

Elastomer Type: Chloroprene (CR)

Precix Compound: N55 / 75 Shore A

General Information

- Resistant to Oils, Chemicals, & Weathering
- Excellent Resistance to Refrigerants
- Durable - resistant to heat, oil, & abrasion
- Broad Temperature-range
- Good Compression Set
- Good flexibility

Applications

- Industrial Gaskets, Seals & O-rings
- Automotive Components
- Refrigerant systems

Material

- 100% Virgin Materials
- Made in USA

Color

- Black

Operating Temperature

- -40°C to +120°C

Specific Gravity

- 1.41
